

TOBACCO-FREE SCHOOL CAMPUS POLICY

The Sweetwater County School District Number One, State of Wyoming, Board of Trustees recognize that the use of tobacco products is a health, safety, and environmental hazard for students, employees, visitors, and school facilities. The Board believes that the use of tobacco products on school grounds, in school buildings and facilities, on school property or at school-related or school-sponsored events is detrimental to the health and safety of students, staff and visitors.

The Board acknowledges that adult employees and visitors serve as role models for students. The Board recognizes that it has an obligation to promote positive role models in schools and to promote a healthy learning and working environment, free from unwanted smoke and tobacco use for the students, employees, and visitors on the school campus.

Tobacco Use Prohibited

No student, staff member or school visitor is permitted to use any tobacco product at any time, including non-school hours (24/7):

- 1) in any building, facility, or vehicle owned, leased, rented or chartered by the Sweetwater County Public Schools;
- 2) on any school grounds and property – including athletic fields and parking lots – owned, leased, rented or chartered by the District; or
- 3) at any school-sponsored or school-related event on-campus or off-campus.

In addition, District employees, school volunteers, contractors or other persons performing services on behalf of Sweetwater County Public Schools also are prohibited from using tobacco products at any time while on duty and in the presence of students, either on or off school grounds.

Further, no student shall be permitted to possess a tobacco product while in any school building; while on school grounds or property; or at any school-sponsored or school-related event, or at any other time that students are under the authority of school personnel.

Tobacco products may be included in instructional or research activities in public school buildings, if the activity is conducted or supervised by the faculty member overseeing the instruction or research project, and the activity does not include smoking, chewing, or otherwise ingesting the tobacco product.

Opportunities for Cessation

Prevention Education

The administration shall not use programs sponsored by a tobacco company.

Procedures for Implementation

The administration will develop a plan for communicating the policy that may include information in student and employee handbooks, announcements at school-sponsored or school-related events, and appropriate signage in buildings and around the school campus. An enforcement protocol, which identifies consequences for students, staff and visitors who violate the policy, will be created and communicated to all students, staff and parents.
